

Dear Naples Urgent Care Patient,

MonaVie™ is a vitamin-rich health supplement made from the Açai berry and 19 other juices. Antioxidants have been shown to decrease the risk of cholesterol attaching to arteries, among other health benefits. Four ounces of MonaVie™ daily has been found to have the antioxidant equivalent of 13 servings of common fruits and vegetables.

We believe in it so much that we are now endorsing it at both of our Urgent Care sites.

Please ask your provider which of the MonaVie™ choices is best for you.

MonaVie™ Original – packed with antioxidants, minerals and fiber.

MonaVie™ Active – Glucosamine Hydrochloride is added to MonaVie™ Original to promote additional joint health.

MonaVie™ Pulse – plant sterols and Omega-3 fatty acids are added to the original MonaVie™ to decrease the risk of heart disease.

We believe in the importance of prevention and not just in the treatment of illness and disease. Please take an active role in your health to reduce the risks of heart disease.

Follow a low fat diet plus exercise and consider the addition of MonaVie™ to your daily routine in order to help reduce the risk of heart disease, which is a nation number one killer.

Sincerely
